Abs.Ret (%age) – Absolute returns shows the simplest form of returns. It tells us the percentage increase or decrease in the value of the investment.

XIRR (%age) – Extended Internal Rate of Returns gives us value for one or multiple transactions in the same scheme. Returns of Systematic Investment Plans (SIP), Systematic Transfer Plan (STP), Systematic Withdrawal Plan (SWP) and multiple investments or withdrawals are best considered on the basis of XIRR. The returns of schemes may not reflect the correct %age due to partial redemptions.
